Summary

Aspiring Full Stack Developer with knowledge of Java, SQL, Database Management Systems, and web application development. Alongside development, I am gaining hands-on understanding of Software Testing concepts such as Manual Testing, SDLC, STLC, and test case design. I enjoy solving problems, learning new technologies, and creating efficient software solutions. Looking for an opportunity to contribute to development and testing activities while continuously improving my technical and professional skills.

Education

MVJ College of Engineering, Bengaluru

B.E- Information Science and Engineering | Dec 2022 - Jun 2026

CGPA: 7.917

Sir MV PU College, Davangere

Pre-University Course - PCMCs | Jun 2020 - Apr 2022

Percentage: 79.3

National Residential School, Konandur

Class 10 | April 202

Percentage: 77.5

Internship

Dhee Coding Lab| Java Full Stack Developer Intern

[Bengaluru, India | Jan 2026 – May 2026]

- Developed and maintained full-stack web applications using Java, JSP, Servlets, JDBC, MySQL, HTML, CSS, JavaScript, and Maven.
- Built a **Vehicle Service Management System** featuring secure authentication, CRUD operations, service scheduling, vehicle tracking, and admin management modules.
- Applied MVC architecture, integrated databases using JDBC, conducted application testing and debugging, and deployed solutions on Apache Tomcat.

Projects

Gesture-Based Music Control System

Tech: Python, OpenCV, MediaPipe, Scikit-learn, CNN, PyAutoGUI, Pycaw, NumPy, pandas

Built an AI-powered system using computer vision and machine learning to recognize hand gestures for music control. Used OpenCV and MediaPipe for real-time hand-landmark detection, and Scikit-learn/CNN models for gesture classification. Integrated PyAutoGUI for media actions and Pycaw for smooth volume control, ensuring high accuracy and responsiveness.

Banking Management System

Tech: Java, Swing, OOP, JDBC, SQL

Developed a desktop banking application with a Swing GUI and MySQL using JDBC. Implemented login/signup, deposits, withdrawals, fast cash, PIN change, balance enquiry and mini-statement features. Created a reusable DB connection manager, handled transactions with SQL queries/ ResultSet, and added input validation with user feedback. Followed modular OOP design across major screens for maintainability and smooth feature extension.

Technical Skills

Programming Languages: C, C++, Java

Web Technologies: HTML, CSS, JavaScript

Database: SQL

Core Concepts: DSA, OOPs, DBMS

Backend / Technologies: JDBC, Servlets, Hibernate

Software Testing: Manual Testing, Test Case Design, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Defect Life Cycle

Tools & IDEs: Eclipse IDE, VS Code, MySQL Workbench

Certifications

- **DBMS & Java Workshop:** NIC Club Hands-on training in database systems and Java fundamentals.
- **Certificate for the completion of Advanced Cpp Training:** Completed Advanced Cpp test organized at MVJCE.
- **Certified in HTML (Spoken Tutorial, IIT Bombay):** Gained knowledge of HTML structure, formatting and web development basics.
